ANNEX A. Guide to filling up the Potential Rabies Exposure Registry.

Registration
No.: Current year–0001 (chronological number).
Date: Date the patient was first seen, regardless of whether PEP was given.

Exposure History
Type of Animal: (P) Pet or (S) Stray—owned or ownerless animal freely roaming the community; then specify (D) Dog, (C) Cat, or (O) Others.
PEP Eligible: (Y) Yes; (N) No if:

Immunologically-naive (Category II): *Exposure of a* ***non-immunocompromised*** *individual to a vaccinated animal (as defined in the AO) that is available for observation for 14 days, EXCEPT if any high-risk criteria are present.*

Previously-immunized (Category II & III): *Exposure of a* ***non-immunocompromised*** *individual who completed at least three (3) doses of anti-rabies vaccine within the last six (6) months, EXCEPT if any high-risk criteria are present.*

High-risk criteria:
1. *Vaccinated >6 months ago with ≥3 doses*
2. *Biting animal cannot be observed, is sick or rabid, dies, or is a bat*
3. *Wounds in highly innervated areas (neck, head, genital area, hands, toes, or in very close proximity to the CNS)*
4. *Multiple or deep wounds*
5. *Patient has uncontrolled co-morbidities*
6. *Patient is from a hard-to-reach area with infrequent transportation to and from ABTC/ABC*

The PEP Decision tree may be used as a guide: tinyurl.com/RabiesPEPDecisionTree

Post-Exposure Prophylaxis (PEP)
Washing of Bite: (Y) Yes—Wash wound immediately and thoroughly with soap and running water for a minimum of 15 minutes; (N) No.
Previously Immunized: (Y) Yes—documented evidence of at least three (3) prior doses of anti-rabies vaccine; (N) No.
PEP Type: (P) Primary—immunologically naïve or immunocompromised patient; (B) Booster—previously immunized patient, non-immunocompromised.
Outcome: (C) Completed—received at least D0, D3, and D7; (INC) Incomplete—did not receive at least D0, D3, and D7; (N) None—PEP-eligible Category II/III patient who did not receive any CCEEV dose; (D) Died—died of any cause while on PEP.
Status of Animal (after 14 days): (A) Alive; (D) Dead; (L) Lost—animal not available for observation for 14 days.
